Capital Budget Carry-overs

My questions are for the Minister of Finance:

1. Over the last five years, what amount of the capital budget has the Government of the Northwest Territories carried over;
2. what has been the reason for the carry-overs, by category;
3. do the reasons point to internal or external capacity challenges within the Northwest Territories; and
4. what gaps does the Government of the Northwest Territories identify to facilitate spending government capital dollars?
