# Introduction

The 2022-2023 Capital Estimates are a summary of infrastructure projects which the Government of the Northwest Territories (GNWT) has deemed a priority for the 2022-2023 fiscal year. These Estimates support the priorities of the 19th Legislative Assembly as follows:

- Build a strong and sustainable future for our Territory
- Increase employment opportunities
- Strengthen and diversify our economy
- Address housing needs
- Ensure a fair and sustainable health care system

In supporting these priorities, the GNWT is committed to providing key infrastructure, which is the foundation of the modern economy. Infrastructure investment ensures the health and well-being of residents while laying the ground work for growth and private sector investment.

Infrastructure planning requires a balance between responsibilities to existing residents and businesses while investing for future generations. Recognizing this balance and in the spirit of consensus government, the GNWT follows a Corporate Capital Planning process (Appendix B). This process culminates into the annual Infrastructure Acquisition Plan which assists the Government in identifying priority projects. In finalizing the Capital Estimates, the GNWT appreciates that there is both a current cost of development and a future liability for the maintenance and ultimate replacement of current infrastructure.

The timing of approval of the 2022-2023 Capital Estimates provides a planning period for both departments and contractors. This planning period is intended to facilitate the procurement process and accommodate the relatively short summer construction period in the Northwest Territories.

## Wildlife and Fish

The Wildlife and Fish activity is responsible for the stewardship of wildlife resources. Wildlife initiatives assess and monitor wildlife populations, habitat, species at risk, wildlife health, and biodiversity. Wildlife also coordinates initiatives to address impacts on wildlife from human activity. Functions include developing legislation, strategies, management plans and programs to support the conservation and management of wildlife resources, participating in environmental assessment and review processes, preparing public information materials on wildlife conservation and management, biodiversity and reducing wildlife/human conflicts, undertaking compliance activities and administering the sport fishery. Wildlife decisions are made using the best available scientific, traditional and community knowledge.

## Information Systems Shared Services

The Government Chief Information Officer provides overall management of the Information Systems Shared Services activity.

The Governance, Planning and Security division provides, policy, strategic and operational advice to ensure a government-wide view of information management, systems and technology. The division also ensures corporate activities related to strategy, policy implementation, technology planning, enterprise architecture and information and cyber security are undertaken in a timely and consistent manner. The division stays abreast on sector advancements to identify opportunities to help program areas improve service delivery through the use of information and technology. Through its strategic business partner roles, the division works directly with departments to understand and anticipate program needs. The division also represents the GNWT in all Canadian Radio-television and Telecommunications Commission (CRTC) proceedings which affect the north and monitors and advocates to the CRTC and the Government of Canada with respect to broadband initiatives that have the potential to improve broadband infrastructure and/or services in the NWT. Further, to support program service delivery, the division also coordinates customer service delivery training programs.

The Application Services division is responsible for the implementation, operations and maintenance of business applications and solutions. These services include solution advice, design and delivery, security and risk management, corporate web services, geomatics, and data reporting and analytics. Application Services supports corporate solutions which span multiple program areas, as well as niche solutions supporting specific program areas.

Information Systems Shared Services works collaboratively with other technology delivery teams like the Technology Service Centre to ensure seamless service to its clients, and prioritize departmental requests and demand for services.

## Economic Diversification and Business Support

The Economic Diversification and Business Support activity leads the development of policy, programs and initiatives in support of the renewable resources sector, NWT Traditional Economy, and the business community. The activity is the GNWT lead on internal and international trade matters and works to attract foreign investment and immigration. ITI Regional Offices supply program guidance, support and assistance at the community level. Specific programs support agriculture, commercial fisheries, arts and fine crafts, film, hide procurement, fur and marketing. The infrastructure need identified within this activity is for the new fish processing plant.

## Tourism and Parks

The Tourism and Parks activity provides overall planning, marketing, administration and maintenance of the Territorial parks; support to tourism business operators, tourism support businesses, community governments and Indigenous organizations for infrastructure development, product development, skills and safety training, mentoring, marketing, and tourism awareness; and conducts research and planning. ITI's Regional Offices execute day-to-day operations, capital project management, enforcement and asset maintenance activities in parks; and supply program guidance, support and assistance at the community level.

ITI continues to make capital improvements to parks for amenities required to keep the parks safe, meet growing demands for upgraded facilities and to attract more visitors to the NWT through the continuous improvement of the park experience. Infrastructure needs identified within this activity are for parks amenities.

## Asset Management

The Asset Management activity includes the planning and design of buildings and works, highways, marine facilities, and airports throughout the Northwest Territories on behalf of the GNWT. This activity includes the delivery of operations, maintenance, and project management services to ensure that client needs are met and facility life cycle costs are minimized. Asset Management functions support regional operations by providing technical support in several areas: planning; technical expertise for program and design standards; leasing options and space management; evaluations and commissioning; production of granular materials; environmental site remediation assessment, planning, and coordination; project management support; risk assessment; and overall general technical support to ensure regional operations can be successful.

## Corrections

The Corrections activity provides safe custody and supervision of adult and youth offenders. This is achieved through the operation of correctional facilities and the supervision of offenders sentenced to community-based orders such as conditional sentences and probation orders. Corrections also delivers culturally relevant programs to support offender rehabilitation and reintegration, including input and support of Elders, the Traditional Liaison Officers and Indigenous staff members.

## Court Services

The NWT has four levels of court which collectively constitute the judicial branch of government: Court of Appeal, Supreme Court, Territorial Court and Justice of the Peace Court. The courts are independent of the executive (GNWT departments and public agencies) and legislative (Legislative Assembly) branches of government. The Court Services activity is responsible for providing administrative support to the courts through the Court Registry, and the Sheriff's Office. These support services ensure courts are accessible, impartial and timely. The activity is also responsible for family law services, including mediation, and the Parenting After Separation Program.

## Legal Aid Services

The Legal Aid Commission (the Commission) is established under the *Legal Aid Act*, and is responsible for ensuring that all eligible persons in the NWT receive legal aid. The Commission provides legal services for legal aid outreach, most criminal and family law matters, and some civil cases unrelated to family law. It determines eligibility for legal aid in accordance with the parameters established by the *Legal Aid Act*, the Legal Aid Regulations and the policies and guidelines of the Commission. The Commission is also responsible for the court worker program, public legal education, and the provision of administrative supervision to the Office of the Children’s Lawyer.

# NWT Housing Corporation

(Information Item)

The Northwest Territories Housing Corporation (NWT HC) provides social and market housing programs and services including subsidized rental and homeownership programs (including purchase and repairs), and unsubsidized rental housing in rural and remote communities. The NWT HC develops programs and services to address the core housing needs of NWT residents. The NWT HC incorporates energy-efficient technologies in its housing design and in the retrofitting of housing to improve its sustainability and energy efficiency. At the community level, the NWT HC partners with Local Housing Organizations, and Indigenous governments, to manage and administer community housing services in 33 communities.

This summary reflects the 2022-2023 planned infrastructure expenditures of the NWT Housing Corporation. The financing of these expenditures includes funding from the Canada Mortgage and Housing Corporation and various other sources. Contribution funding is provided by the GNWT through the NWT HC's sponsoring department, the Department of Finance, in the annual Main Estimates. This information is intended for review purposes only.

# NWT Housing Corporation

## Finance and Infrastructure Services

Finance and Infrastructure Services (F&IS) is responsible for overall planning of capital infrastructure projects including the development, design and procurement, and delivery of capital infrastructure projects in support of the NWTHC's rental and homeownership programs. This includes the administration and acquisition of suitable land and the security of NWTHC assets and mortgage interests. F&IS also leads efforts in maintenance management activities of the rental housing portfolio in order to ensure its long term sustainability and is the NWTHC's lead on issues related to energy efficiency and new housing technologies.

Appendix A  
**GLOSSARY**

<b>Activity</b>	A division of a Department
<b>Amortization</b>	The portion of the total cost of a tangible capital asset (TCA) that is charged to an operations expense in the current fiscal period as a result of charging the cost of a TCA to an operations expense over its useful economic life.
<b>Appropriation</b>	The authority to incur an expenditure that is set out in an Act respecting the authorization of expenditures, or the express authority in the <i>Financial Administration Act</i> (FAA) or another Act to incur an expenditure, or to make a disbursement out of the Consolidated Revenue Fund.
<b>Classification</b>	Community - A specific community utilizes (e.g. a school or water treatment plant) Regional - Limited primarily to a specific region (e.g. a highway project) Territorial - A territorial project (e.g. Stanton Territorial Hospital or Information Technology projects)
<b>Budget</b>	A detailed estimate of future transactions, in terms of quantities, money values or both, designed for planning and control over future operations and activities.
<b>Capital Investment Expenditure</b>	An expenditure incurred to purchase, construct, develop or otherwise acquire a tangible capital asset to be owned by Government or a Public Agency.
<b>Contribution</b>	A conditional transfer of approved funds to a third party to fulfill a statutory obligation or other Government objective within a specified time frame.
<b>Deferred Maintenance (DM)</b>	Is a dedicated allocation of funds to the maintenance of Government owned assets. Historically, maintenance has competed for funding with other projects and was often deferred
<b>Department</b>	A division of the public service continued or established by statute, or designated as a department by the Commissioner in Executive Council, on the recommendation of the Premier; or the Office of the Legislative Assembly.
<b>Disposal</b>	The processes of removing of an asset from use and from the accounting records as a result of destruction, loss, obsolescence or abandonment.
<b>Estimates</b>	Annual estimates of expenditures and revenues of the GNWT in the context of budgets (i.e. Main Estimates for operations revenue and expenses; Capital Estimates for infrastructure expenditures).
<b>Expenditure</b>	For purposes of the <i>Financial Administration Act</i> , expenditure means an outlay of funds, or incurrence of a liability, that results in an operating expense or infrastructure expenditure.
<b>Financial Instrument</b>	Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

<b>Financial Management Board</b>	The committee of the Executive Council, established by the <i>Financial Administration Act</i> .
<b>Infrastructure Contribution (IC)</b>	A contribution made to a third party, by the Government, to purchase, construct, develop or acquire a tangible capital asset, where the risks and rewards incident to ownership are retained by the third party.
<b>Large Capital Asset</b>	A tangible capital asset with a total project cost exceeding \$600,000.
<b>Location</b>	The community where a tangible capital asset is physically located. If not located in or near a specific community (e.g. a highway project), then "various" is designated as the location.
<b>Net Book Value</b>	The cost of a tangible capital asset, less both accumulated amortization and the amount of any write-downs.
<b>Public Agency</b>	A statutory body specified in Schedule A, B, or C of the <i>Financial Administration Act</i> .
<b>Public Private Partnerships (P3)</b>	A business venture which is funded and operated through a partnership of government and one or more private sector companies.
<b>Regions</b>	Geographical subdivisions of the Northwest Territories for administrative purposes.
<b>Revised Estimates</b>	Includes the Capital Estimates and Supplementary Appropriations.
<b>Small Capital Asset</b>	A tangible capital asset with a total project cost of \$50,000 or greater, but not exceeding \$600,000.
<b>Tangible Capital Asset (TCA)</b>	<p>A non-financial asset having physical substance that;</p> <ul style="list-style-type: none"> <li>• is held for use in the production or supply of goods, delivery of services or program outputs;</li> <li>• has a useful economic life beyond one fiscal year;</li> <li>• is intended to be used on a continuing basis;</li> <li>• is not intended for resale in the ordinary course of operations; and</li> <li>• cost is equal to, or greater than, \$50,000</li> </ul> <p>Major categories of tangible capital assets are:</p> <ul style="list-style-type: none"> <li>• Land (other than land acquired at no cost to the government)</li> <li>• Roads and Bridges</li> <li>• Barges and Tugboats</li> <li>• Airstrips and Aprons</li> <li>• Buildings</li> <li>• Ferries</li> <li>• Fences</li> <li>• Signs</li> <li>• Aircraft</li> <li>• Network Transmission Systems</li> <li>• Fuel Distribution Systems</li> <li>• Park Improvements</li> <li>• Water and Sewer Works</li> <li>• Mainframe and Software Systems</li> <li>• Mobile and Heavy Equipment</li> <li>• Major Equipment</li> <li>• Medical Equipment</li> <li>• Leasehold Improvements</li> </ul>

**Valuation Allowance**

An amount recorded to recognize the potential reduction in value of a recorded financial asset or non-financial asset due to the recorded amount not likely to be fully recovered or fully realized. The valuation allowance is an offset to the recorded amount of the asset to determine the carrying value, net book value, or net realizable value of the related asset.

**Work-in-progress (WIP)**

An account used to record capital investment expenditures prior to the applicable tangible capital asset being substantially complete or put into service.

**Work Performed on Behalf of Others**

The Government undertakes to perform certain functions in the Northwest Territories on behalf of the Government of Canada or others. Funds expended for these activities are fully recovered and are not required to be appropriated by the Legislative Assembly.

**Appendix B**

# Capital Planning Process

The development of the Capital Estimates is a committee-based process where several groups review and monitor each step of the process to ensure accuracy and completeness.

The Capital Planning Process is built on the following cornerstones:

- Establishment of clear roles and responsibilities
- Accurate and timely project planning
- Justification of capital projects through the capital planning process, and
- Controlling project cost and risk.

This process provides for one financial target which funds all departmental projects for the upcoming fiscal year. Projects are prioritized on a government-wide basis according to a specific ranking criteria.

The primary criteria for ranking capital projects are as follows:

1. Protection of People;
2. Protection of Assets;
3. Protection of Environment;
4. Financial Investment; and,
5. Program Needs or Requirement.

Secondary criteria are used to further assess the urgency of projects, within each of the primary criteria. The secondary criteria are as follows:

1. Direct Impact Scale – how many impacted?
2. Severity of Impact – what is the impact?
4. Urgency – how soon is it needed?
3. Mitigation – what else can be done?

The capital planning process can be summarized from the following process chart:
