TABLE D – Self-Harm and Suicide Ideation

NWT, Fiscal Years 2016-17 to 2020-21

Condition/Issue	2016-17	2017-18	2018-19	2019-20	2020-21
Total Self-Harm and/or Suicide Ideation	182	161	172	183	168
Total Self-Harm	95	85	99	104	90
Self-Harm with Suicide Ideation	16	7	11	12	4
Total Suicide Ideation	107	90	87	95	88
<p>Notes: Numbers are subject to future revisions. Patients are counted only once per year per condition/issue regardless of how many times they are hospitalized in the year. Includes any diagnosis of the condition/issue (e.g., self-harm, and/or suicide ideation) on the patient's record. Excludes patients who died in the hospital.</p> <p>NWT Department of Health and Social Services and Canadian Institute for Health Information, <i>Discharge Abstract Data</i>.</p>					

TABLE E – Suicide Ideation/Attempt as Primary Concern at Community Counselling Program (CCP)

NWT, Fiscal Years 2018-19 to 2020-21

Reported primary concern for clients* accessing CCP services			
Primary concern:	2018/2019	2019/2020	2020/2021
Suicide Ideation / Attempt	304* (3% of all reported primary concerns)	264* (3% of all reported primary concerns)	286* (3% of all reported primary concerns)
Deliberate Self-Injury**	29* (0.3% of all reported primary concerns)	44* (0.4% of all reported primary concerns)	25* (0.3% of all reported primary concerns)

*Data is counted each month, so total client numbers will include repeat service-users who are seen for more than one month. Numbers do not reflect unique clients.

** Data encompasses all self-injurious behaviour, including non-suicidal self harm.
