## **Introduction**

Public Sector Accounting Standards (PSAS) require the government reporting entity to consolidate its budget using the same accounting principles and presentation that it uses to report its actual financial results. The consolidated budget is tabled annually.

The Main Estimates represent the Government of the Northwest Territories' (GNWT) proposed appropriations for the 2022-2023 fiscal year. The Main Estimates detail all revenues projected to be earned and all expenses projected to be incurred for the period April 1, 2022 to March 31, 2023, in order to implement strategies and achieve the goals of all the Government Departments. The Main Estimates are compiled on a non-consolidated basis.

Revolving Funds are included in the Main Estimates within the departments to which they have a financial reporting relationship. Revolving funds are engaged in commercial activities, with undefined and non-lapsing expense authority.

The Consolidated Budget represents a summary of the GNWT's Main Estimates approved by the Legislative Assembly, and Public Agencies' operating budgets approved by their responsible Ministers. It is adjusted to eliminate budgeted inter-entity revenues and expenses. In accordance with Public Sector Accounting Standards, the Consolidated Budget also represents the Government's original consolidated fiscal plan for the 2022-2023 fiscal year and does not reflect supplementary appropriations.

All entities included in the Government Reporting Entity have a March 31 fiscal year-end with the exception of Aurora College, Divisional Education Councils and District Education Authorities, which have a June 30 fiscal year-end.

## **Government Reporting Entity**

The Consolidated Budget presents summary information and serves as a means for the Government to show its accountability for the resources, obligations and financial affairs for which it is responsible. In addition to the GNWT Departments and Revolving Funds, the following entities are also included within the Government reporting entity. These entities' financial results are consolidated annually and included in Section I – Consolidated Financial Statements of the Public Accounts.

*Aurora College Act*

Aurora College

*Education Act*

Beaufort-Delta Divisional Educational Council

Commission scolaire francophone Territoires du Nord-Ouest

Dehcho Divisional Education council

Dettah District Education Authority

N'dilo District Education Authority

Sahtu Divisional Education Council

## Revenues by Source

The Government funds programs and services through a combination of grants and transfer payments from the federal government as well as own-source revenues. The following shows the consolidated budget for fiscal years 2021-2022 and 2022-2023 and actual results for 2020-2021.

### Grants and Transfers from Federal Government

### Own-source Revenues

**Expenses**

The graphs below provide information on the Government’s expenses by Program and Category.

## **Segmented information**

The Government reports on segments on the basis of relationships of its operations with similar entities. Segments are identified by the nature of an entity's operations and the accountability relationship that a group of similar entities has with the Government. There are no significant allocations of revenues or expenses between segments.

Government departments are identified as one segment to reflect the direct accountability relationship for financial reporting and budgeting between departments, their respective Ministers and the Legislative assembly.

Other Public Agencies within the Government Reporting Entity represent another segment. These agencies are typically associated with a particular Government department and have a formalized reporting relationship to that department. For example, Health and Social Services Authorities have an accountability relationship to the Minister of Health and Social Services as well as to their respective board members.

Other Public Agencies also include agencies that report directly to a Minister responsible for their operations. For example, the Northwest Territories Housing Corporation (Housing Northwest Territories) and the Northwest Territories Hydro Corporation have Ministers specifically assigned to their operations. The agencies in this segment assist the Government in delivering its programs and services and in achieving its priorities.
